

LANCE HAVEN K. DE JESUS

COMPUTER ENGINEER

☎ 0905-650-6683 ✉ dejesuslance8@gmail.com 📍 Tuguegarao City, Cagayan

SUMMARY

Motivated and detail-oriented IT professional with a strong foundation in computer engineering and information technology, equipped with hands-on experience in system support, troubleshooting, and basic programming. Demonstrates strong analytical thinking, adaptability, and problem-solving skills, with a commitment to continuous learning and delivering efficient, reliable, and high-quality technical solutions in a dynamic work environment.

EXPERIENCE

Admitting Staff

Ace Medical Center - Tuguegarao City, Cagayan **April 07, 2025 – Present**

- Facilitate patient registration and admission in an efficient and timely manner
- Accurately collect and verify patient demographic and admission information
- Prepare, review, and process required admission documentation
- Coordinate with healthcare providers to ensure smooth patient admission
- Communicate admission procedures and requirements clearly to patients and their families
- Maintain accurate, organized, and confidential patient records in compliance with policies

EDUCATION

Master in Information Technology

University of Saint Louis Tuguegarao City, Cagayan
2024 - Present

Bachelor of Science in Computer Engineering

University of Saint Louis Tuguegarao City, Cagayan
2020 - 2024

Junior and Senior High School

Saint Paul University Philippines, Tuguegarao City Cagayan
2014 - 2020

SKILLS

Technical and Hard Skills:

- **Basic Programming:** C++, JavaScript
- **Web Development:** HTML, CSS
- **Database Fundamentals:** Basic Database Concepts
- **Software & Tools:** MATLAB, CAD, Google Workspace
- **Troubleshooting & Debugging:** Software and Hardware Troubleshooting, Error Analysis

Soft Skills:

- Attention to detail
- Critical Thinking
- Communication Skills
- Problem solving
- Adaptability
- Leadership
- Team Collaboration

PROJECTS

Self-Service Ticketing Kiosk for Hotel and Resort Facilities

- **Project Leadership:** Led the team as Team Leader and Presenter, overseeing system development, task delegation, and stakeholder communication.
 - **System Development:** Utilized the Rapid Application Development (RAD) approach to design and prototype the system using Bubble.io, enabling rapid development with minimal coding.
 - **Application Features:** An interactive kiosk system that enables users to select resort services and amenities, automatically generating a QR code with selected items and total cost. Integrated an admin module for QR code scanning, payment verification, and transaction status updates to ensure accurate tracking and efficient processing.
 - **Impact:** Increased operational efficiency by reducing queues, minimizing manual workload, and improving transaction accuracy and customer satisfaction.
-

CERTIFICATIONS & TRAININGS

SIRIB: Engineering and ITE Innovation Program

University of Saint Louis Tuguegarao - (May 15, 2023)

On-the-Job Training

Department of Information and Communications Technology Region II - (June 07 - July 21, 2023)

Canva Beyond Basics

Department of Information and Communications Technology Region II - (June 9, 2023)

Internet Media and Information Literacy (IMIL) & Google Workspace

Department of Information and Communications Technology Region II - (June 14, 2023)

PC Troubleshooting and Repair Techniques

Department of Information and Communications Technology Region II - (March 19, 2025)

Tech Forward: Navigating Current Technology Trends and Cybersecurity in the Digital Age

Department of Information and Communications Technology Region II - (April 25, 2025)
