SUMMARY

IT professional with a Bachelor's degree in Computer Engineering and experience in IT support and technical troubleshooting gained through the Department of Information and Communications Technology (DICT) internship and healthcare operations. Skilled in hardware and software support, networking, and web development. Currently pursuing a Master's in Information Technology while continuously expanding expertise in enterprise IT systems and customer-focused technical support.

PROFESSIONAL EXPERIENCE

Admitting Staff

ACE Medical Center - Tuguegarao City | April 2025 - Present

- Delivered efficient patient registration and admission services by accurately verifying patient information and processing admission requirements.
- Utilized BizBox Hospital Information System to maintain accurate electronic patient records, process admissions, and ensure data integrity.
- Coordinated with other healthcare professionals to facilitate timely patient admissions and continuity of care.
- Prepared and reviewed admission documentation while ensuring compliance with hospital policies, regulatory requirements, and patient confidentiality standards.
- Provided professional assistance to patients and their families by explaining admission procedures, addressing inquiries, and ensuring a smooth admission experience.

IT Intern

Department of Information and Communications Technology (DICT) | June 2024 – July 2024

- Assisted in installing and setting up communication equipment
 - Assisted in Wi-Fi deployment, configuration, and optimization for public connectivity initiatives.
 - Delivered field and office IT support for institutional systems and services.
 - Supported daily administrative and technical operations.
-

PROJECTS

Self-Service Ticketing Kiosk for Hotel and Resort Facilities

Technologies: Bubble.io, QR Code Integration

- Developed a self-service kiosk application using Bubble.io to automate hotel reservations, food ordering, and payment verification through an intuitive touchscreen interface.
- Implemented key features including QR code scanning, digital menu browsing, reservation management, and electronic receipt generation.
- Enhanced operational efficiency by reducing customer wait times, minimizing manual transactions, and improving the overall guest experience.

TECHNICAL SKILLS

- **Programming:** C++, JavaScript, HTML/CSS, SQL
- **IT Support:** Hardware & Software Troubleshooting, BizBox HIS
- **Networking:** LAN/WAN, Wi-Fi Configuration, VSAT Installation
- **Tools:** Git/GitHub, MATLAB, AutoCAD, Visual Studio Code

PROFESSIONAL SKILLS
